

4.1.1.

The campus of “**Dayananda Anglo Vedic PG College**” is, spread over 12 acres with pink building, established in 1904 with the inspiration of **Thakur Puran Singh Negi** who donated his entire immovable property to our educational institution situated at Karanpur, Dehradun. The total covered area of college buildings is 17560.31 square meter.

Learning spaces-

The College has adequate facilities for best teaching – learning. The college intends to impart quality education for all round personality development of the students. Keeping it in mind, the college has total commitment towards providing quality education. The college recently got constructed 18 new class rooms for creating conducive environment for effective teaching and learning. Out of which, six are smart class rooms equipped with audio visual communication equipments.

The college has well equipped laboratories, classrooms, museum and library with 1,47,911 Books. The administrative block has sufficient number of spacious rooms for catering and maintaining the records of the bonafide students and faculty members.

Regular **Class rooms**, labs and other equipments are necessary for smooth conduction and operation of Education in any organization. At present, College has **forty normal class rooms** and **6 audio video equipped smart rooms** of different seating capacities which meet the educational requirements of students. All rooms are equipped with black board/white board and green glass board. All class rooms meet requirements prescribed by various governing bodies like the affiliating university, Directorate of Higher Education, BCI, UGC and NCTE.

For the purpose of quality professional and modern education, **the** college has twenty one Laboratories in science faculties, two laboratories in Drawing & Painting department and two with Geography Department. In addition A Moot Court (Virtual Court room for cases practice) and Three Computer labs are also functional in the college for the students.

The library is equipped with ICT facilities. It has computerized bar code assisted book management system. It has a large reading room, INTERNET work stations with 12 computers, one INTRANET server with Fibre Optic backbone.

Twenty one departmental staff rooms are shared by faculty members. These rooms are meant for effective student-teacher interactions on personalized basis. All the departments are well connected with **WIFI (JIONET)** and are well stocked and furnished.

The College has signed Annual Maintenance Contracts (AMC) for all major equipments, which require regular servicing and maintenance. In order to maintain uninterrupted power supply for class rooms and administrative block, the college has Solar Power Plant of capacity 60 KWP and a backup of Kirloskar Generator of 62.5 KVA.
